

Main Accessories	SB 10
Spare Part Kit	K9801028
Shock Mounts	4x1503005
Inlet Filter	9001024
Inlet Filter Element	1801017

PRODUCT DESCRIPTION:

The SB 10 and SB 12 pumps are equipped with:

- Protective filter at the inlet
- Silencer at the outlet

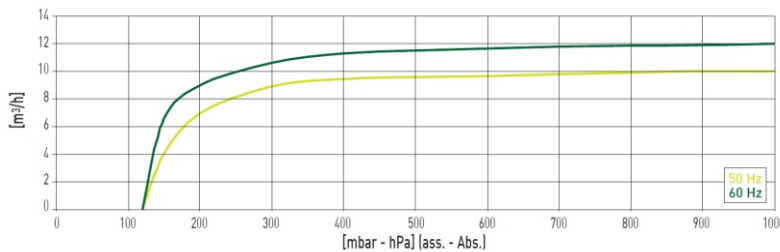

Limited weight and dimension are possible by the monoblock industrial design type with the rotor directly assembled on the motor shaft. Mainly built with light-weight alloy, the SB 10 and SB 12 oil-free rotary vane vacuum pumps can be fitted in places where little room is available, but in which ventilation is good.

The cooling of the pumps is ensured by the motor fan.

The SB 10 pump can work as compressor up to a pressure 0.6 bar. We recommend fitting a pressure relief valve set at the proper pressure to avoid damages to the electrical motor or to the pump.

MAIN APPLICATION FIELDS:

Non-food packaging, air cushion machines, blister machines, filling and sealing, tub sealing machines and production of paper bags.

NOTE: Graph shows inlet pressure at a temperature of 68°F (tolerance ±10%)

	SB 10	
	50 Hz	60 Hz
Part Number	9801028	
Nominal Capacity	7.1 CFM	
Total Final Pressure (Abs.)	26.38 inHg / 90 Torr	
Motor Power	.5 HP	.6 HP
Nominal r.p.m.	1400	1700
Noise Level dB(A)	59	61
Weight	35 Lbs.	
Pump Intake/Outlet	1/2" / —	
Operating Temperature	158°F - 167°F	176°F - 185°F
Dimensions	12" X 8" X 7"	

Please contact the Manufacturer if environmental conditions are different from those prescribed.
